About me

I'm Maksym, a backend engineer and IT consultant with over 15 years of experience in software development. My core expertise includes Python, Golang, and scalable microservice architectures. Throughout my career, I have also taken on team leadership and project coordination roles across international teams. I currently operate as an independent consultant in Germany, helping small and mid-sized businesses streamline operations through automation, cloud infrastructure, and system integration. Open to meaningful collaborations across the DACH region.

Experience
